## DR. G. C. PARDEE SAYS SNOW IS A FALSIFIER.

## MAYOR SNOW SAYS DR. PARDEE IS A FALSIFIER.

Declares By Indirection That  
the Mayor Has Broken  
Sacred Promise.

\*\*\*\*\*  
**LET IT BE DECIDED BY PROOF  
WHO IS THE FALSIFIER.**  
\*\*\*\*\*

Executive in Written State-  
ment Brands Doctor's  
Story as False.

THE OPENING STATEMENT DEVOLVES UPON DR. GEORGE  
C. PARDEE, THE ACCUSER.

Dr. George C. Pardee in the following statement asserts that Mayor Snow is a falsifier if he says he did not promise to vote for Miller for Street Superintendent. Snow says he did not so promise. Question? Who is the liar?

Dr. George C. Pardee, on being shown the interview with Mayor Snow in yesterday's TRIBUNE, in which Mayor Snow said that he had never promised to vote for Mr. Miller's re-appointment as Superintendent of Streets, made the following reply:

"I refuse to be interviewed on the matter at all. I cannot believe that Mayor Snow made any such statement. There must be some mistake. He must have been incorrectly reported."

"The statement attributed to Mayor Snow is so entirely different from the fact that I cannot believe that he said anything of the kind. Newspaper men, like all the rest of us, you know, may make mistakes in quoting what is said to them; and I must believe that Mayor Snow was incorrectly reported when he is made to say that he never promised to re-appoint Mr. Miller Superintendent of Streets."

"I haven't anything to say about the letter Mayor Snow wrote to Harry Morse, in which he said that he would not vote to re-appoint Mr. Miller. That speaks for itself."

"But I cannot bring myself to believe that Mayor Snow ever denied that he had promised to vote to re-appoint Mr. Miller."

"You must positively excuse me from saying anything more in this regard. As I said before, Mayor Snow must have been misquoted when he is made to say that he never promised to re-appoint Mr. Miller."

[Mayor Snow today said that he never promised to Dr. Pardee or any man on earth at any time prior to or since election that he would vote for Miller for Superintendent of Streets.—Editor Tribune.]

**GUILTY MAN  
IS A LUNATIC.**

A Patient Responsible  
for the Agnews  
Scandal.

Associated Press Dispatches by  
The Tribune's Special Leased Wire.

SAN JOSE, July 13.—The examination into the case of Mrs. Chaffers continues at St. Agnews. Testimony today continues to be directed against Cooper, who, while a patient, was practically an assistant and often had keys to the ward where Mrs. Chaffers was located.

Henry Davis, a cook, said the affair was common talk around the kitchen, and that Cooper stated on one occasion that he was sorry for Mrs. Chaffers' condition, and he supposed he should marry her, but that he could not under their disabilities. It should be added that Cooper was committed because of drink, and was freed from liquor is apparently as sane as any man.

Miss Ryan, an attendant, testified that she had on one occasion seen Cooper assisting Mrs. Chaffers through a window. This was reported to headquarters.

Supervisor Braden also testified to having seen Cooper with the keys, and had reported this fact.

So far there seems to be little doubt now that Cooper was a patient, and a guilty party. As he is a patient, it is hard to say how he can be punished.

There is a lot of gossip concerning the trouble today. There are rumors that several official heads will fall into the basket.

**CAPT. GOODALL  
PASSES AWAY.**

The Pioneer Shipowner  
Dies in England of  
Old Age.

Associated Press Dispatches by  
The Tribune's Special Leased Wire.

SAN FRANCISCO, July 13.—A cablegram was received here today announcing the death at Newport, England, of Captain Charles Goodall of the firm of Goodall, Perkins & Co., the pioneer shipping firm of this coast and controlling the Pacific Coast Steamship Company, whose vessels ply between all the large ports of the Pacific coast, including Alaska.

Captain Goodall was about 75 years of age. A few years ago he married a comparatively young woman, and with his wife went to Europe. Reports of his death from England were to the effect that he had been declining rapidly of late. His fortune was an immense one.

**ALLEGED CRAZY DEFAULTER.**

Associated Press Dispatches by  
The Tribune's Special Leased Wire.

LOS ANGELES, July 13.—Dan Cooper, the Deputy City Assessor who disappeared on July 4th leaving a shortage in his accounts of over \$400, returned to the city last night. It is stated by relatives that he is mentally unbalanced. Two days ago his wife received a letter from him dated at Ensenada, Lower California, in which he stated that he did not know how he came to be there. He came to his senses, he said, as the steamer was entering the harbor of Ensenada. Previous to that, everything is a blank to him.

He told the same story to him wife last night upon his return. He says the money is in the most covert wallet in the end of the drawer of his chest, but where the drawer is he cannot remember.

His whole manner and appearance is changed.

## STRANGE CASE FOR CORONER.

The Man Who Was Burned In  
the Haystack Fire Shot  
Himself.

The mystery of the year, in the list of those who have met with a violent death, is the identity of the man who was burned to a crisp in a haystack near Piedmont Park, early yesterday.

The victim was not a tramp. He was not a "dinky-man" as the term goes. That he drank liquor, there is little reason to doubt, but the liquor, in this case, in all probability, was a delicate one because the jar found beside him had contained curacao.

The victim was not murdered, because, when first seen by Deputy Sheriff Hitchcock, he was on top of the blazing stack of hay, where he must have been shot by his alleged assailants. If he was shot at all, to sustain the murder charge, if he had been shot there, his assailants could not have escaped the fate which overtook him. And yet, his was the only remains which were found.

In clearing away the debris of the fire, where the body was found, there were picked up by Deputy Coroner Quelin the remnants of a tooth brush, the metallic rim of a purse, a ring with two small valises and two small Yale keys, two lenses of a pair of eyeglasses of crown glass, which had been released from the frame and had fused into a solid mass; a pearl-handled pocket-knife with a miniature attachment of the most approved order and a revolver, which even in its charred condition showed that it was of the latest pattern. The cartridge shells in the gun were empty. Two of them had been exploded by the impact of the hammer. The others had been exploded by the heat. A murderer's gun could not have been thrown where this weapon was discovered. The victim, therefore, must have shot himself with suicidal intent. He set fire to the hay by the shots and was making attempts to save himself from burning to death when seen to be overcome by the officers. In the fire, he was a young man, a face shown by his perfect teeth and round breast. He was dressed well because the fused eyeglasses of his shoes showed a most recent pattern of footwear.

What home or circle of friends has lost a youthful member by this strange tragedy?

## OUTBREAK OF GLASS BLOWERS.

Non-Union Men Taken  
Into Camp By  
Strikers.

Associated Press Dispatches by  
The Tribune's Special Leased Wire.

BRIDGEPORT, N. J., July 13.—The arrival of fifteen non-union glass blowers here today caused an outbreak. The strikers came from Indiana on a train over the New Jersey Central Railroad. They were met at the station by a large crowd of strikers, who immediately surrounded the train and captured the non-union men. A lively fracas ensued, during which many blows were exchanged. Manager O. M. King of the Cumberland glass works, who was in charge of the party, was hit on the head with a brick and badly injured.

The glass in the doors and windows of the car in which the non-union men were riding was shattered, and a hack waiting at the station for the mail was wrecked by the strikers. In the belief that it was to take Manager King to the works.

The non-union men were finally induced to accompany the strikers to the latter's headquarters, where an attempt is being made to force them to leave town.

**Peace Officers Disagree.**

E. L. Patton, a peace officer on the Hayward electric line, has preferred charges of disturbing the peace against Deputy Constables Jordan and Plunkett. Patton claims that the men interfered with him while he was attempting to quell a disturbance on one of the cars.

## MUSTER-OUT AT SAN FRANCISCO.

Oregon Troops' Re-  
quest Granted by the  
War Department.

Associated Press Dispatches by  
The Tribune's Special Leased Wire.

WASHINGTON, July 13.—Secretary Alger this morning received a telegram from San Francisco containing the unanimous request of the Oregon regiment for muster-out at San Francisco. After consultation with the President, it was decided to concede the request. Travel pay and accommodation railroads will be issued to the soldiers.

**GOOD NEWS FOR THE HEROES.**  
SAN FRANCISCO, July 13.—A telegram was received from the Department at Washington today announcing that the Oregon volunteers on board would be mustered out here and that travel pay and accommodation railroads would be issued to the soldiers.

The decision of the Washington officials was soon made known to the soldiers on the transports, and was received with loud hurrahs.

The people of this city are much gratified at this turn of affairs, and the committees having the reputation of the soldiers in charge will complete their arrangements at once.

Just when the soldiers will be allowed to land and what disposition will be made of them after they land has not yet been decided.

SAN FRANCISCO, July 13.—It has been almost definitely determined to land the Oregon volunteers tomorrow morning. The transport City of Paris will leave the transport dock this afternoon for Manila, with the Oregonians on board, and will be replaced by the Para. They will be docked at late tonight or tomorrow morning.

General Shafter has arranged to have a suitable escort from the Presidio ready to march with the returned soldiers in the parade tomorrow, and later to escort them to the Presidio.

The mustering out process will take two or three weeks, Governor Geer of Oregon and his staff will leave for Portland tomorrow afternoon after the parade.

## CAVALRY FOR GEN. OTIS.

Associated Press Dispatches by  
The Tribune's Special Leased Wire.

WASHINGTON, July 13.—A dispatch has been received from General Otis requesting that there be sent to the Philippines 2,500 horses, in order that a brigade of cavalry may be organized for use at the end of the rainy season. General Otis has tried the horses of Manila and nearby countries, but none of them seem to be suitable for cavalry. It is the intention of Secretary Alger to have the mounts carefully selected, and he thinks that animals from the Southern States, not too heavy but tough and wiry, will be the best.

## WELCOME OUR ATHLETES.

Associated Press Dispatches by  
The Tribune's Special Leased Wire.

LONDON, July 13.—The newspapers here extend the most cordial welcome to the Yale and Harvard athletes who arrived at Southampton yesterday on board the American line steamer, St. Louis, and who are to go into training at Brighton. The papers express the hope that the visit from the Americans will be a success in every way except in the contest where, however, they admit the trans-Atlantic university men will give a good account of themselves.

**OUR BOYS AT BRIGHTON.**  
BRIGHTON, July 13.—The American athletes have arrived here.

## THE PARIS NOW AT FALMOUTH.

A Narrow Escape From  
Again Going on  
the Manacles.

Associated Press Dispatches by  
The Tribune's Special Leased Wire.

FALMOUTH, Eng., July 13.—On entering the tidal harbor today the steamer Paris, recently aground on the Manacles, under the influence of wind and tide, became temporarily unmanageable. Her stern swung around and struck the end of a wooden pier upon which a large crowd had gathered. The pier shook from end to end. The spectators became panic-stricken and made an ugly rush for escape. Ultimately control of the ship was regained, and she was safely anchored.

Superintendent Ascher of the wrecking companies gave a representative of the Associated Press today a contribution of a startling nature as to the cause of the wreck on the Manacles.

He said: "In bringing the Paris to Falmouth she narrowly escaped a big Manacle rock. It was off tide with a northerly wind blowing, which would naturally take the vessel south, but we found her getting nearer and nearer the Manacles until within 400 yards of them, whereas we ought to have been a mile to the south of them. Things looked queer for a time, but we altered our tactics and cleared the rock."

"From what I have seen during the past six weeks I am confident some mysterious current draws the vessels toward the rocks. While working on the Paris we warned numberless vessels of the danger they were in."

## ANXIOUS EYES ON GUATEMALA.

Associated Press Dispatches by  
The Tribune's Special Leased Wire.

WASHINGTON, July 13.—The State Department is watching with anxiety the developments in Guatemala. It is premature to say that the decision has been reached to send the Philadelphia from San Francisco down to that country, and it may be that the presence of the gunboat Vixen on the east coast will be regarded as sufficient for the present. But there are hints of foreign action that might involve a repetition of the Corinto incident, and in that case it would probably be deemed necessary for our Government to have a stronger naval representation at the seat of trouble.

It is said at the State Department that the financial conditions in Guatemala, with impending repudiations, threaten severe loss to American citizens. But so far our Government has not consented to take any joint action with England, Germany or any other nation, to bring pressure to bear upon the disturbed republic.

## TWO VESSELS AND THEIR CREWS GO DOWN IN THE DEEP.

BOTH DISASTERS OCCUR  
OFF THE COAST OF  
AUSTRALIA IN A STORM.

Associated Press Dispatches by  
The Tribune's Special Leased Wire.

PERTH, West Australia, July 13.—The British ship Carlisle Castle was lost in a storm yesterday off Beekingham. The crew perished.

The Carlisle Castle, Captain Lindley, of 1,314 tons net register, left the Clyde March 21st for Fremantle, near Perth, Western Australia. She was built at London in 1885.

**ANOTHER WRECK.**  
The British ship City of York has been wrecked off Rottnest Island. Seven of the crew were saved, but the Captain and eleven men are missing.

The City of York, Captain Jones, sailed from San Francisco April 13th for Fremantle, near Perth, Western Australia. She was built at Glasgow in 1893, and was of 1,177 tons net register.

## TEACHER SLAIN BY A JANITOR.

Shot in Church and the  
Murderer Feigns  
Insanity.

Associated Press Dispatches by  
The Tribune's Special Leased Wire.

DALLAS, Texas, July 13.—Professor William Lipscomb of the Dallas High School died today from the effects of a wound received from John T. Carlisle, former janitor of the school, who shot him during revival services at the First Christian Church.

Carlisle, who is a cousin of former Secretary of the Treasury Carlisle, professes not to remember anything about the shooting. He is in jail and the defense will be emotional insanity. Carlisle lost his position as janitor, and blamed Lipscomb for it.

**Prominent Canadian Dying.**  
OTTAWA, Ontario, July 13.—Hon. W. B. Ives, former president of the Privy Council, is seriously ill, and his life is despaired of. Mr. Ives was stricken with paralysis while en route from the Pacific coast.
